

MAKING A NEW WORLD

PART 2

A SUMMER GATHERING

In 2013 a gathering was held on the 40th anniversary of J.G. Bennett's book "Gurdjieff: Making a New World". Looking back on that event, some of those who were there feel that a process began that would be worthwhile pursuing. This gathering will be an opportunity for people who are already engaged in inner work and see the need to "pay the debt of their existence," to spend a few days together in consideration of how best we can serve the future, a matter of increasing urgency for all of us.

"What is in front of us is the need to change to an attitude in which we accept that every man has to serve a cosmic purpose, that every life serves for something, not just for its own satisfaction and not for some otherworldly purpose either."

From: 'The World Situation' talk published in "Needs of a New Age Community"

As at the previous gathering the focus will be on co-operation, responsibility and trust. The structure of the event will be determined by the participants.
